

K-Love radio station provides service to my area in Wyoming that has few opportunities for there unique format. If replaced by LPFM, it world be almost certain that I and the many Wyoming residents, I know that listen and support K-Love, would no longer have the priviledge of listening to this unique commercial free format. The type of music played is not available in any other station in our state. Please do not take away our K-Love because it keeps thousands inspired daily. Please do not allow the Low Power FM stations over the FM translator service. Thanks for your time! Vickie R. Nelson, Casper, Wyoming
